Subject: Enola Branch MOA - New hard copy

Susan,

I have just called our office to have the "resend" you another copy of the Final MOA. I will have them overnight it so that it can be tracked.

Troy

Subject: Re: Enola Branch MOA

Good morning,

Susan, I'm not sure how you have an email version of the Final MOA as no person from our shop email any final versions. We mailed final copies to all the signatories and concurring parties using the same addresses that have been used in the past. I would argue that the final moa is in your shop somewhere as you have received all other materials that we have sent.

as for your other points, see the message below that I sent to Karen.

Hi Karen,

The MOA and Notice were mailed to all the signatories/concurring parties for review and signature. We ask that all parties to sign the MOA and send it back to us along with their original signature page. When all signatures pages have been received, the STB will sign the MOA and then make a Final copy of the MOA with copies of all the signature pages attached and send a copy to the signatories for their record.

That is how we have handled the process since I have been with the agency.

With regard to feedback from the consulting parties, all concerns are summarized in the Notice that accompanied the MOA. I hope that you have no significant concerns because the Don Klima and the PA SHPO were in agreement with the previous draft of the MOA. We added additional requirements, within the limits of our jurisdiction, based on the comments received.

If you have additional questions, please feel free to call or email.

Troy
